TO WHOM IT MAY CONCERN

All Ways Cargo Portugal Transitários, S.A. was established in 1993, being an IATA agent since 1995 and Globalink Member since January 2009.

Being an Airfreight market leader in Portugal, it is extremely important for All Ways Cargo, S.A. to belong to a Network which could guarantee the service level and quality commitment which we and our customer require.

After one year, the balance is extremely positive, and we are very pleased to confirm that the Globalink Members with whom we deal on a regular basis, are in fact highly professional, diligent and the most cooperative. As an example, we have recently moved an urgent shipment of 304 cbm by air from Shanghai and got the most dedicated and efficient support from the Globalink Agent in Shanghai enabling us to fully comply with our client's delivery requirements.

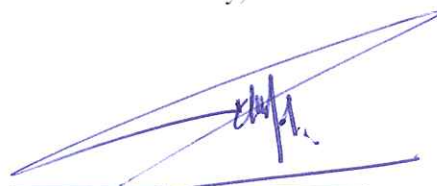

Also on Seafreight, we are having very professional and efficient supports from Globalink Agents worldwide and wish to specially enlighten the cooperation we got from Globalink Agent in Spain and Brazil.

All Ways Cargo 2009 success had, definitely a very positive contribution from Globalink Network.

On a very competitive market, in the middle of a global economic crisis, belonging to a Network which has high profile partners, is an added value to all Globalink Members, worldwide.

We trust 2010 will strengthen even more the Network capabilities and we expect to develop new business with our fellow members.

Sincerely,

Luís Rodrigues
President
